

Application Number	M13
Grant Amount	\$4,800
Works Being Revised	http://libguides.gsw.edu/libr1101 http://libguides.gsw.edu/c.php?g=507459
Description	This project will revise and expand the OER materials for the GSW Library Area B course LIBR1101. A previous Textbook Transformation Grant provided funding to develop the materials, with the number of course offerings increased since that time. Additionally, beginning spring 2018, LIBR1101 will transition from a one hour course to a two hour course, remaining part of Area B. Project goals are to increase OER deliverable content, materials, assignments, and projects to reflect two hours of course work. Development of a mid term project, quizzes, and a revised final project are also goals included in the project. All course materials are open content, with many developed by John Wilson and Ru Story Huffman.
