Affordable Learning Georgia
Textbook Transformation Grants

Request for Proposals
Round Five

Round Five Review
November 9, 2015, 4:00 PM - 5:00 PM
Lauren Fancher
Director, GALILEO Support Services and Special Projects, BOR

Jeff Gallant
ALG Visiting Program Officer for Open Educational Resources, BOR

Pam Buffington
Senior Manager for Academic Technology, Director of Platform Technologies for the Center for 21st Century Universities, Georgia Tech
Why Grants?
The State of Georgia’s FY 2015 & FY 2016 budget includes funding to support a new USG initiative, Affordable Learning Georgia (ALG), which focuses on reducing the costs of textbooks and the enhancement of GALILEO, Georgia’s Virtual Library and ALG’s parent initiative.
A key strategy is to provide grant-supported opportunities for USG faculty, libraries, and institutions to transform their use of textbooks and other learning materials into lower cost options.
Affordable Learning Georgia **Textbook Transformation Grants** are intended to:

- Pilot different approaches in USG courses for textbook transformation including adoption, adaptation, and creation of **Open Educational Resources** (OER) and/or identification and adoption of materials already available in GALILEO and USG libraries
- Provide support to faculty, libraries, and their institutions to implement these approaches
- Lower the cost of college for students and contribute to their retention, progression, and graduation
An RFP for Round One of the ALG Textbook Transformation Grants was released in August 2014:

- Received 48 proposals
- Resulted in thirty grant awards to 19 USG institutions to support adoption and use of no-or low-cost learning materials in USG courses in Spring semester 2015 in amounts of $10,800 each, in three categories:
  - No-Cost-to-Students Learning Materials
  - OpenStax Textbooks
  - Course Pack Pilots

Total Awarded: $383,590
An RFP for Round Two was released in October 2014:

- Received 78 proposals
- Resulted in **27 grant awards to 16 USG institutions** to support adoption and use of no-or low-cost learning materials in USG courses in Summer and Fall Semester 2015 and Spring Semester 2016 in amounts ranging from $10,800 to $30,000 each, in four categories:
  - No-Cost-to-Students Learning Materials
  - OpenStax Textbooks
  - Course Pack Pilots
  - Transformations-At-Scale

**Total Awarded:** $569,900
An RFP for Round Three was released in May 2015:

• Received 18 proposals from 16 project leaders
• 16 proposals from 9 USG institutions were awarded grants, with the result that all project leaders were awarded grants for no more than one proposal each in the following three categories:
  – No-Cost-to-Students Learning Materials
  – OpenStax Textbooks
  – Specific Top 50 Lower Division Courses

Total Awarded: $281,050
An RFP for Round Four was released in August 2015:

- Received 45 proposals from 19 institutions
- 25 proposals from 16 USG institutions were awarded grants, with the result that all project leaders were awarded grants for no more than one proposal each in the following three categories:
  - No-Cost-to-Students Learning Materials
  - OpenStax Textbooks
  - Specific Top 50 Lower Division Courses

**Total Awarded:** $407,400
All Round One, Two, Three, and Four Grantees Listed with Links to Proposals on ALG Website

http://www.affordablelearninggeorgia.org/about/textbook_transformation_grants
• This RFP addresses three cycles of submission (3, 4, and 5) and review for which the same criteria apply.

• Two levels of funding are available (Single Course: $10,800 or Multiple Sections/Courses/Department-Wide: $30,000) in three categories of projects (No-Cost-to-Students Learning Materials, OpenStax Textbooks, and Specific Top 50 Lower Division Courses.) A detailed description follows below.

• Proposals in categories 1-2 can address any course; proposals that address courses in the Top 50 USG Lower-Division Courses are encouraged.
• **Single Course** awards can provide up to $5000 for release time/overload/salary/replacement per team member for each of up to two team members for a maximum of **$10,000 total plus $800 for overall project expenses**, including travel for at least two team members to attend a required grant kick-off meeting.

• **Multiple Sections/Courses/Department-Wide** awards can provide up to $5000 for release time/overload/salary/replacement per team member for each team member for a maximum of **$29,200 total plus $800 for overall project expenses**, including travel for at least two team members to attend a required grant kick-off meeting.
1. No-Cost-to-Students Learning Materials
2. OpenStax Textbooks
3. Specific Top 50 Lower Division Courses
1. No-Cost-to-Students Learning Materials

• Proposals in this category will address faculty replacing their existing textbook in a specific course with no-cost-to-students learning materials. No-Cost-to-Students Learning Materials can include but are not limited to the following:

• Adoption, adaptation, and/or creation of Open Textbooks, Open Courseware, and/or other Open Educational Resources. Sources include MERLOT, Cool4Ed, OpenStax CNX, Open Textbook Library, Saylor Academy, and Lumen Learning.

• Adoption of materials already available in GALILEO and USG libraries.

• Any of these in combination.
2. OpenStax Textbooks

The University System is a member of Rice University’s OpenStax College, which offers students free textbooks that meet scope and sequence requirements for most courses. These are peer-reviewed texts written by professional content developers. Faculty can adopt a book for a turnkey classroom solution or modify it to suit their individual teaching approach.

OpenStax Textbooks adoption grants are designed to support faculty driven work required for adoption of a specific textbook for a specific course. Proposals in this category will address faculty replacing their existing textbook in a specific course with an adoption/adaptation of an OpenStax College open textbook.
3. Specific Top 50 Lower Division Courses

Proposals in this category will use any approach in categories one and two to address unmet needs for OER adoption in specific courses in the Top 50 Lower Division courses. The below list represents those Top 50 Lower Division Courses that have not had an ALG-funded project in rounds one and two; proposals in this category must address one of these selected courses.

</table>

List included in RFP
• Round 5 can address courses taught in any of these semesters: Spring 2016 and/or Summer 2016 and/or Fall 2016 and/or Spring 2017
Proposals must involve teams of at least two or more of any of the following: faculty, faculty librarians, instructional designers, subject matter experts, editors, graphic designers, or others as needed.

Awards can provide up to $5000 for release time/overload/salary/replacement per team member plus $800 for overall project expenses, including travel for at least two team members to attend a required grant kick-off meeting.
• Funding is not a direct stipend to the team members
• Funding goes **to the institution** to cover the team member’s time (salary / release time / overload / replacement coverage), project expenses including related department needs, and travel expenses
• Up to $800 is specifically designated for at least two team members to attend the required in-person kickoff meeting
The proposing team must coordinate as necessary with their departments and institutional sponsors to determine how to handle the distribution, including amounts, release time/overload/salary/replace ment as well as semester(s).
This provides the maximum flexibility to the institution and the team in terms of how many people and what types of skills are needed, amount of compensation vs. replacement of teaching load, and timing in terms of semesters of preparatory work vs. semesters of adoption.
Funding will be released to the sponsoring institutional office in two parts:

- 50% on return of the USG-drafted Service Level Agreement (SLA) with the original or modified proposal serving as the statement of work
- 50% on submission of the final report
• Institutional sponsors will be responsible for fund disbursement, including expense and travel reimbursement.

• Budgets will be supported by State funds and therefore institutions spending project money must ensure compliance with State, BOR and institutional policies and procedures.
Expected activities in all categories include training in the chosen project resources, open licensing as necessary, any textbook creation or adaptation required, and course redesign as necessary for the transformation.

Other required activities:

• Institutional sign-off on Service Level Agreement(s) provided by the University System Office, using the project proposal as a statement of work
• Institutional invoice to USG along with the signed SLA in order for funds to be disbursed
• Attendance by at least two team members at a required kick-off training/implementation meeting
• Completion of project status report for every semester of the implementation
• Completion of a final project report, including provision of data on impact on student success
• Participation as needed in ALG-related communications
• Team members will participate in a required in-person meeting to kick-off project implementation.

• Round Five: **February 8, 2016, 9:00am-4:00pm, Middle Georgia State University, Macon, GA**

• Hold this date and make arrangements so that you are able to participate in the event your project is funded.

• This is a required event in order to receive the grant.
Required Proposal Elements

• Two items are required:
  – Completed Proposal Form (instructions included inline)
  – Letter of support

• The letter must be provided from the sponsoring area (unit, office, department, school, library, campus office of the Vice President for Academic Affairs etc.) that will be responsible for receipt and distribution of funding. For multi-institutional teams, letters of support must come from each institution’s sponsoring area.

• Letters must reference sustainability.
Process

• The Georgia Institute of Technology’s Center for 21st Century Universities (C21U) will manage the review process independently on behalf of ALG, working with a team of reviewers who will evaluate the projects in a blind process.

• Proposals will be evaluated on the feasibility and reasonableness of the action plan and adherence to the proposal guidelines, as weighted in the rubric. Follow-up questions or interviews may be requested of applicants. Please note that awardees’ applications will be made available to all USG institutions.
Proposals are submitted via Georgia Tech’s online grant management software, CompetitionSpace.

1. Set up competition space user account
2. Complete your proposal narrative offline using the template provided on the website
3. Save as plain text
4. Copy and past as needed into the Competition Space form. Save your work and return later if you need to.
5. Save your original Word version; you may need it if revisions are required in order to receive a grant.
6. Post your letter of support to Competition Space.
7. Submit your application.

Application Process
• With your completed offline proposal prepared and in hand, walk through the submission process in Competition Space

• The following screen shots will help you see what the process is like.
Textbook Transformation Grant

**Internal Submission Deadline:** Sunday, May 31, 2015

**Administrator(s):** Pamela Buffington (Owner), Lauren Fancher

**Category:** University System of Georgia

**Award Cycle:** Round 3 - FY15

**Discipline/Subject Area:** All

**No. of Potential Awardees:** 90

**Maximum Funding Available:** Two Maximum Funding Levels, Based on Scale: $10,800 and $30,000

**Description:**
This RFP for Textbook Transformation Grants addresses the first of three cycles of submission and review for which the same criteria apply. Please refer to the [ALG Textbook Transformation Grants website](#) for complete information regarding all 3 rounds.

Two levels of funding are available (Single Course: $10,800 or Multiple Sections/Courses/Department-Wide: $30,000) in three categories of projects (No-Cost-to-Students Learning Materials, OpenStax Textbooks, and Specific Top 50 Lower Division Courses.)

If you have received this email in error, you can safely ignore it, and no account will be created using your email address.

About CompetitionSpace

Use CompetitionSpace to manage competitions for funding, from limited submission to internal funding opportunities.
Office of the Executive Vice President for Research

Welcome to the Office of the Executive Vice President for Research (EVPR) Funding Opportunities page. This page highlights both internal competitions and externally sponsored projects either managed by or of great importance to our office. Only competitions that are currently open appear below. Please read the information and instructions within the individual competitions carefully, and pay special attention to the Limited Submissions Process explained to the right.

Limited Submissions Process

If you are planning to submit an internal pre-proposal for a limited submission opportunity, your first step is to enter a Letter of Intent in the system. The Letter of Intent is a brief form which allows our office to 1) determine the necessity of a competition, 2) gauge the number of submissions we can expect and 3) begin to line up the appropriate reviewers. In some cases, only applicants who have submitted a Letter of Intent are eligible to participate in the internal competition for that opportunity. Please read all of the instructions for each competition very carefully.

For general questions about limited submissions, or if you are interested in a limited submission opportunity that is not

Formatting Issue:
The “Proposal Narrative” Word Document is included for download in CompetitionSpace in order to guide you through the application process.
Copying the Word Document’s text and tables and pasting them into CompetitionSpace will render the page unreadable for reviewers.
Formatting Requirement:
Either type your responses into the CompetitionSpace text boxes or:
• If you are copying and pasting into CompetitionSpace from this form, first convert the file to plain text and copy/paste from the plain text file.
  – In Word, go to File > Save As... > and change the file format to “Plain Text (.txt).”
  – Copy and paste from the .txt file.
  – Be sure to save both copies in case you are asked to resubmit.
• Be sure not to leave any of the explanatory text in the narrative (in italics)
• Be sure to read the rubric and review your proposal for required elements
• Designed to be simple and straightforward
• Contact us if you have questions

CompetitionSpace

The application you submitted to the Textbook Transformation Grant competition has been reviewed by a competition administrator and has been accepted. After the submission deadline passes and all submissions have been reviewed, the review committee will make a final decision on the nominee, and you will receive an email announcing the decision.

About CompetitionSpace

Use CompetitionSpace to manage competitions for funding, from limited submission to internal funding opportunities.
• With early submissions, your application will be reviewed for acceptance or returned (declined) for revision.
  – Applications with Word-derived copy/paste formatting problems will be returned for revision.
  – We cannot return applications for revision on the date of the deadline. Submit your proposals earlier in order to receive any necessary feedback before review. Applications with Word-derived copy/paste formatting problems received at the final deadline will be declined.
• An email notification will include the reasons and changes requested for resubmission, or will indicate acceptance.
