1. Project Narrative

Describe the course of your revision or ancillary creation project, including

- *A summary of your project's purpose, plan, and timeline.*

Enhance the "Liberte" French 1001 and 1002 online textbook initially created with interactive activities and support student success in the classroom, providing valuable supplemental materials.

Our plan was to create audio activities, add videos and written activities to supplement those already in the textbook since there was no workbook or DEVOIRS in the initial webpages.

We first created the audio and designed some activities (semester 1) then we imbedded some of the "Liberte" labs and recorded some audio to go along with it (semester 2).

Finally we imbedded everything on the webpages in a new tab called "DEVOIRS" (this spring).

- *The original works which were revised or added to, with links.*
 - *For example, if you revised an open textbook, give the title, author, and link.*

LIBERTE by Gretchen Angelo

- *Lessons learned, including anything you would do differently next time.*

This project went well and we learned how to use soundcloud to create and imbed those activities in wix. It would be great to now continue to create more listening activities maybe while in the target country to render a more authentic audio sample.

2. Materials Description

- *Describe all the materials you have created or revised as part of this project. These descriptions may be used in the [GALILEO Open Learning Materials](#) repository in the official description field.*

The two webpages that were upgraded:

4. Future Plans

- *Describe any planned or actual papers, presentations, publications, or other professional activities that you expect to produce that reflect your work on this project.*
- *Describe any plans to revise or add to these materials in the future.*

The plan for this summer is to go to France and to record more audio and video with native speakers.
