Application Details

Manage Application: Textbook Transformation Grants: Round Eleven

Award Cycle: Round 11
Internal Submission Deadline: Tuesday, January 23, 2018

Application Title: 357
Application ID: 002073
Submitter First Name: Katharine
Submitter Last Name: Shepard
Submitter Title: Librarian
Submitter Email Address: kshepard@ega.edu
Submitter Phone Number: 478-289-2087
Submitter Campus Role: Proposal Investigator (Primary or additional)

Applicant First Name: Dr. Deena
Applicant Last Name: McKinney
Applicant Email Address: dmckinney@ega.edu
Applicant Phone Number: 478-289-2062
Primary Appointment Title: Associate Dean of Teaching and Learning and Professor of History
Institution Name(s): East Georgia State College
Co-Applicant(s): Katharine Shepard
Submission Date: Tuesday, January 23, 2018

Proposal Title: 357
Proposal Category: Specific Top 50 Lower Division Courses
Final Semester of Instruction: Fall 2018
Are you using an OpenStax textbook?: No

Team Members (Name, Email Address):

Dr. Deena McKinney, Associate Dean of Teaching and Learning and Professor of History, EGSC, dmckinney@ega.edu

Katie Shepard, Research & Instruction Librarian, EGSC, kshepard@ega.edu
Sponsor, (Name, Title, Department, Institution):

Dr. H. Lee Cheek, Dean of the School of Humanities and Social Sciences, East Georgia State College.

Course Names, Course Numbers and Semesters Offered:

HIST 1112: Western Civilization since 1648

Offered every semester; our focus is on Summer & Fall 2018

List the original course materials for students (including title, whether optional or required, & cost for each item):

Average Number of Students per Course Section: 25

Number of Course Sections Affected by Implementation in Academic Year: 3

Average Number of Students Per Summer Semester: 25

Average Number of Students Per Fall Semester: 30

Average Number of Students Per Spring Semester: 30

Total Number of Students Affected by Implementation in Academic Year: 85

Requested Amount of Funding: $10,800

Original per Student Cost: Total: $191.95
Creation and Hosting Platforms Used ("n/a" if none):

Brightspace by D2L & LibGuides

Project Goals:

Teaching students to think critically and engage deeply in materials in a world history course can be expensive. The current cost of textbooks in HIST 1112, Western Civilization from 1648 to the Present, is $191.95. All students, but particularly those at access institutions (primarily two-year degree granting institutions), find this cost daunting. Today, however, an enormous range of primary source documents, such as Wilson's 14 Point Speech, as well as virtual tours and media, like the interactive component of the British Museum, can now “come to the student” via laptops, tablets, or even smartphones.

The goals of this project:

Redesign HIST 1112, which has used a traditional textbook and printed book of primary source materials, into one that uses all online, free materials of the same quality and subject matter
Add more interactive multimedia components to the course to engage the 21st century learner, particularly intro videos or talks to "catch" students' attention.
Organize the content in Brightspace by D2L, our institution's learning management system (LMS), and LibGuides, the library's online guides to resources, so that the course content can also be used in a traditional or flipped face-to-face classroom at EGSC or other institutions throughout the USG.
Revise and narrate all Power Points to make them more engaging and up-to-date with current events.
Embed interactive content (such as "moveable timelines") in the Power Points.
Teach the course for two consecutive semesters, after a planning/initial implementation, using feedback and data to evaluate and revise materials

Statement of Transformation:

Transformation: Reduce the costs of taking HIST 1112 by replacing traditional textbooks with online primary sources and media enrichment (videos, interactive museum websites, and narrated PowerPoints created by the instructor).

Stakeholders: Any students taking HIST 1112 will benefit from this cost reduction. Based on past enrollment, the cost savings per year of using online resources as opposed to textbooks

will be approximately $16,315.75. Other potential stakeholders include other professors of history at EGSC and across the USG. The course is set up online in D2L, but it could be used with equal success in a face-to-face classroom.

**Transformative Impact on Stakeholders & Course Success:** HIST 1112 is an Area E (social science) common core option, which may also be used in Area F for some majors (Area F has 18 credit hours of designated classes at the 1000 or 2000 level for a given major). It has no pre-requisites. Many students choose the course as one of their social science options or as an elective. History majors and some other social sciences majors take the course as part of their program of study. However, a challenge to students in our service sector and geographic area is the cost of textbooks as most students are either first-generation college students or are underprepared for college level coursework. East Georgia State College (EGSC) is an access institution where approximately 30% of the populations in counties in and contiguous to our campus live below the poverty line (via United States Census Bureau QuickFacts at [http://www.census.gov/quickfacts](http://www.census.gov/quickfacts)). Students often cite the inability to afford textbooks as a huge barrier to their success. Even students on financial aid often cannot buy books until after classes begin, thus starting the semester at a disadvantage. If students have access to high quality online reading sources, in addition to the OER and instructor-created media, they can begin working with the course materials from the first day of class. Because this course requires interactive discussion, based on the readings, this access is essential to student success.

**Wider Transformative Impact:** The savings to students over a three-year period is estimated to be $48,945. Moreover, the course will be scalable across the department, the School of Humanities & Social Sciences, and the USG. The use of embedded links to sources and media can be changed quickly to adapt to current events or the needs and interests of a specific faculty member. The course has ten modules. An instructor could, for example, add an additional module or substitute one in her or his area of expertise. The course design is thus customizable and advantageous for a range of instructors. Finally, today’s students want rich media. This course uses an array of educational short videos and interactive websites that brings world history to them in a portable way. Today’s students repeatedly state they find classes with media, such as YouTube and TED Talks, more stimulating and engaging ([http://www.facultyfocus.com/articles/teaching-with-technology-articles/showtime-in-the-classroom-seven-ways-streaming-video-can-enhance-teaching/](http://www.facultyfocus.com/articles/teaching-with-technology-articles/showtime-in-the-classroom-seven-ways-streaming-video-can-enhance-teaching/)). However, the instructor still needs to be sure those materials are of appropriate quality and provide assignments that use the media in a meaningful way. This is one reason the team of instructor plus librarian is particularly effective in this project.

Additionally, transforming this course will enable a student to take the entire Western Civilization survey without having to purchase textbooks or materials as we have previously, and similarly, transformed HIST 1111 during Round 6.

**Transformation Action Plan:**

The learning materials will be adopted for use beginning in the Summer 2018 semester (pilot
phase) for one section of HIST 1112 (online with D2L). The course will be carefully evaluated, refined, and taught again based on gathered data. In December, all data will be compiled and submitted for the final grant report. The course syllabus will include thorough explanations of how to use the online tools, readings, and media. The reading and media links and materials will also be embedded in the course itself (ten modules) for redundancy. Each module will have an introduction, learning objectives, study guide, resources for further exploration, and narrated content written by the instructor. All videos will have transcripts available to ensure Americans with Disabilities Act 508 compliance. The course also will have a "how to succeed in this course" video, with transcript, for guidance on finding and using materials. Both the course overall and each of the ten modules will have a set of student learning outcomes (SLOs). The course design starts with these outcomes, and they establish what materials the instructor selects and creates. The course conforms to the ION (Illinois Online Network) rubric which East Georgia State College uses for online course evaluation. The course instructor, McKinney, who is also the instructional designer, is responsible for the content accuracy, pedagogy, selection of materials, and course assessments. She will also compile and report student success data at several points during the semester (3 weeks, 5 weeks, 8 weeks, end of semester in fall; adjusted in summer for checkpoints at 1/3/5 weeks). This data will be the result of both summative and formative assessments built into the course. This reporting schedule is helpful to students to self-monitor their academic progress as well as a measure of course success rate that the instructor can apply to determine resource appropriateness. The librarian will also assist in gathering quality open access and GALILEO online sources and media for this project. Shepard will assist in assuring that all OERs meet college and USG standards. She will also help verify copyright issues related to the material and serve within the course as a resource. During the administration of the course, the librarian will be embedded in D2L to serve as an additional resource for using the materials, providing assistance with information literacy questions, and providing links to helpful LibGuides and library materials to assist students in their studies. Helping students understand and use primary and secondary sources is also an important part of her role. Our plan for open access -- The learning materials and modules will be available in D2L for enrolled students’ use. They will also be available to other instructors who wish to use the learning modules. The course is designed to be taught online; however, it is completely transferable to a face-to-face or hybrid format. It follows the same SLOs as recommended by the Regents Advisory Council on History for HIST 1112. The course materials will also be available via a public, Creative Commons open-licensed LibGuide hosted through the East Georgia State College Library for easy distribution. The LibGuide will also be submitted for inclusion in the GALILEO Open Learning Materials Repository.
Quantitative & Qualitative Measures:

Several sets of data will be compiled to evaluate success rates at various points in the semester: 3-Week Alert Grade Average (posted in D2L and GradesFirst, an early warning notification and monitoring system that records students’ academic progress. This average includes grades on the first two interactive discussions; the course has 10 interactive discussions total, one for each module, worth 30% of the course grade). This is an optional “grade update” used by the individual instructor. In summer, this first alert will be issued after the first week of class (about three formative assessments will have been comp). 5-Week Early Warning Grade Average (posted in D2L and GradesFirst, includes grades on first four interactive discussions and the first five video quizzes; the course has 18 video quizzes which are worth 10% of the course grade). This early warning grade is required by the college for all courses. In summer, this will be during the third week of class. Midterm Proctored Exam (Given at 7 weeks, worth 30% of grade). This major summative assessment covers the first half of the course and consists of short answer and essay, as well as the first “capstone" theme of the course, primary and secondary sources. Average Grade at Midpoint (Includes five discussion grades, nine video quizzes, and midterm exam, roughly 50% of course final grade). Students receive this information in time to decide whether to withdraw or stay in the course. In summer, this will be in week 5, before the final withdrawal date Final Exam Online (Week 15-16, worth 30% of grade). The final exam has two long essay questions and also addresses the second capstone theme of the course, “historiography.” Final success rates—mean course grade, number of students who earned a C or better compared to total enrolled, number of students who withdrew compared to number of students who completed the course, and mean scores on the major course assessments (midterm exam, final exam, timeline, video quiz average, interactive discussion average). This data will be compared to the success rates of
previous semesters taught using the traditional textbook only. Qualitative Measures: IOTA survey: This is administered in spring and fall only, so we will use spring 2018 data to provide insights into preparations for summer and fall 2018 data to make any final changes to the course content. Students have several open-ended questions with which to provide feedback, and their opinions on OER are solicited specifically. Anonymous Feedback Discussion Board. This discussion board will be open in D2L throughout the semester. This allows students to contribute his or her opinion about the course, the course setup, and the course content anonymously for the instructor(s) to see. Student email check-ins: The instructor sends out periodic emails asking students about their opinions on the OER resources provided. While not anonymous, students can use this as a way to connect with the instructor and librarian, get help, or just chat informally about the course. During the HIST 1111 ALG grant project, this proved to be far more effective than formal surveys.

Timeline:

Spring 2018 – Fall 2018

2/2018 - 5/2018: McKinney revises course content and updated visuals. McKinney and Shepard work together to find quality online primary source readings, video clips, and interactive media for the course. Shepard works on a LibGuide aimed at primary and secondary sources and history-related Library resources. McKinney reviews course with ION rubric. She also checks for issues of 508 compliance (which ensures that students with disabilities can access the content with any needed accommodations) and consistency across course modules. Shepard assists with proofing the course for copyright compliance, typographic errors, and working links.

5/2018: McKinney finalizes course syllabus (see References and Attachments) and rechecks course.

6/4/2018: Class begins. Shepard introduces students to the LibGuide and any other relevant online guides using the course discussion tool. Invitation extended to all faculty members to be “observers” in the course—to learn more about D2L as well as OER teaching. McKinney and Shepard assist students in accessing these materials in D2L throughout the semester.

6/2018: Students receive 3-week interim grade update (posted in D2L and sent via text and email using GradesFirst). In summer, this would take place after the first week of class and the third week of class.
6/2018: Midterm exams and updated grade (approximately halfway through class) posted. Shepard works with students on primary and secondary sources and other information literacy topics using LibGuide and the discussion tool in D2L. Students receive a final update on grades that reflects their midterm exam averaged in.

7/2018: Final exams and end of course/semester. McKinney makes tabulation of success and completion rates (DWR) for the course as a whole and on individual assessments (10 discussions, 18 video quizzes, midterm exam, and final exam). Using this data and the students’ feedback, course revisions are made as needed by McKinney and Shepard prior to beginning of fall. Course content is available to other instructors for fall with data collected from summer. Initial report made to ALG committee.

8/2018 - 12/2018: Transformed course is taught for second time. Continue to gather data from student assessments, evaluations, and success rates for fall.

8/2018: Shepard compiles course module and content available in a LibGuide format for instructors outside EGSC to have access to materials.

12/2018: McKinney and Shepard compile two semesters’ worth of data (assessments, evaluations, DWR/success rates, qualitative commentary) and compare this to the success rates and feedback from the previous sections taught with the traditional textbook. All analysis is sent as a final report to the ALG committee. Course content remains available to other instructors at EGSC in D2L and the USG through a public LibGuide and the GALILEO Open Learning Materials Repository.

Budget:

Awarded funds will be dedicated solely and specifically to meet project goals, objectives, and activities associated with the redesign of HIST 1112 (World Civilization since 1648). The scope of this project required work above and beyond the regularly assigned duties of the team members and will have to be in addition to the regular work and course load.

Personnel and Projected Expenses, Single Course Award:

Dr. Dee McKinney, Professor of History (Instructor of Record)

$5000 release time for course redesign and subject matter expertise

$400 for travel to kickoff meeting and a state conference

Ms. Katie Shepard, Librarian

$5000 release time for research on interactive media, course-related materials, copyright, open source materials, and online primary sources; building and revising the LibGuides
$400 for travel to kickoff meeting and a state conference

**Sustainability Plan:**

Starting in fall 2018, all portions of the course will be offered to other instructors as an open resource in both D2L and LibGuides. Course materials will be updated periodically by Dr. McKinney, who will continue to teach the course, and Katie Shepard, as well as individual instructors. Evaluation of SLOs, course assessments, learning objectives, retention rates, and overall student success as related to the course redesign and use of exclusively online resources will be monitored, and re-evaluated each semester. McKinney and Shepard will give presentations at faculty meetings on campus to encourage the use of OER within courses at EGSC and throughout the USG. As McKinney is the Associate Dean of e-Learning, she can use this opportunity to be an advocate for implementing OERs and interactive media at the institution and throughout the USG. McKinney and Shepard will also pursue presentation opportunities at upcoming conferences to showcase the findings from the transformation and provide access to the materials and guidance for selecting resources for other instructors across the USG.
January 18, 2018

Dear ALG Textbook Transformation Grant Committee:

I am writing in support of the ALG Textbook Transformation Grant, Round Eleven, being proposed by Dr. Dee McKinney, Professor of History, and Ms. Katharine Shepard, Research Librarian at East Georgia State College. They will use Summer and Fall 2018 to work on the course.

Their proposal involves redesigning HIST 1112 (World Civilization since 1648) in the Top 100 Undergraduate Courses category to use online primary sources and interactive websites in lieu of a traditional textbook. The course also uses open source videos, a LibGuide, and written modules by Dr. McKinney for content. HIST 1112 is an Area E (Social Science) core course option, which can also be used in Area F for certain majors. Implementation of the redesigned course will begin in Spring 2019.

The cost currently for materials in HIST 1112 is approximately $170.00. With the movement toward OER through this proposal, East Georgia State College can provide substantial savings to students. The redesigned course, taught every semester to approximately 30 students online, would result in savings of approximately $16,000 per year. East Georgia State College takes great pride in its access mission, but many of our students struggle to pay for textbooks. Our home campus resides in Emanuel County, where 29.4% of the population lives below the poverty line. One of our satellite campuses is in Bulloch County; 31.3% of residents live below the poverty line (Data from the President’s Address, Fall 2015, http://www.ega.edu/images/uploads/fall-faculty-workshop-2015.pdf). The same situation exists in most of the surrounding counties and our service area. Our students want to succeed in college, but fiscally, many of them face challenges. They often have difficulty in obtaining their textbooks due to the high costs.

With the elimination of this financial barrier, student success and retention should increase in this course. A particular strength of this proposal is the use of primary source materials, and the exploration of those materials through interactive discussions, as well as the rich media in the course. Dr. McKinney has over sixteen years of experience in online course design and instruction in her
teaching career of twenty-plus years. Ms. Shepard has been an active participant in both OER and the ALG project since its inception. The course also has numerous quantitative and qualitative measures for assessment of success. Dr. McKinney and Ms. Shepard won an ALG grant in Round Six for the transformation of HIST 1111, the first portion of this two-course sequence.

East Georgia State College and the School of Humanities and Social Sciences endorse and support this project, which we see being easily scalable to the entire University System of Georgia. Thank you for your consideration.

Sincerely,

{Signature}

H. Lee Cheek, Ph.D.
Professor of Political Science and Dean, School of Humanities and Social Sciences

NARRATIVE
1.1 PROJECT GOALS

Teaching students to think critically and engage deeply in materials in a world history course can be expensive. The current cost of textbooks in HIST 1112, Western Civilization from 1648 to the Present, is $191.95. All students, but particularly those at access institutions (primarily two-year degree granting institutions), find this cost daunting. Today, however, an enormous range of primary source documents, such as Wilson's 14 Point Speech, as well as virtual tours and media, like the interactive component of the British Museum, can now "come to the student" via laptops, tablets, or even smartphones.

The goals of this project:

- Redesign HIST 1112, which has used a traditional textbook and printed book of primary source materials, into one that uses all online, free materials of the same quality and subject matter
- Add more interactive multimedia components to the course to engage the 21st century learner, particularly intro videos or talks to "catch" students' attention.
- Organize the content in Brightspace by D2L, our institution’s learning management system (LMS), and LibGuides, the library’s online guides to resources, so that the course content can also be used in a traditional or flipped face-to-face classroom at EGSC or other institutions throughout the USG.
- Revise and narrate all Power Points to make them more engaging and up-to-date with current events.
- Embed interactive content (such as "moveable timelines") in the Power Points.
- Teach the course for two consecutive semesters, after a planning/initial implementation, using feedback and data to evaluate and revise materials
1.2 STATEMENT OF TRANSFORMATION

- **Transformation**: Reduce the costs of taking HIST 1112 by replacing traditional textbooks with online primary sources and media enrichment (videos, interactive museum websites, and narrated PowerPoints created by the instructor).

- **Stakeholders**: Any students taking HIST 1112 will benefit from this cost reduction. Based on past enrollment, the cost savings per year of using online resources as opposed to textbooks will be approximately $16,315.75. Other potential stakeholders include other professors of history at EGSC and across the USG. The course is set up online in D2L, but it could be used with equal success in a face-to-face classroom.

- **Transformative Impact on Stakeholders & Course Success**: HIST 1112 is an Area E (social science) common core option, which may also be used in Area F for some majors (Area F has 18 credit hours of designated classes at the 1000 or 2000 level for a given major). It has no pre-requisites. Many students choose the course as one of their social science options or as an elective. History majors and some other social sciences majors take the course as part of their program of study. However, a challenge to students in our service sector and geographic area is the cost of textbooks as most students are either first-generation college students or are underprepared for college level coursework. East Georgia State College (EGSC) is an access institution where approximately 30% of the populations in counties in and contiguous to our campus live below the poverty line (via United States Census Bureau QuickFacts at [http://www.census.gov/quickfacts](http://www.census.gov/quickfacts)). Students often cite the inability to afford textbooks as a huge barrier to their success. Even students on financial aid often cannot buy books until after classes begin, thus starting the semester at a disadvantage. If students have access to high quality online reading sources, in addition to the OER and instructor-created media, they can begin working with the course materials from the first day of class. Because this course requires interactive discussion, based on the readings, this access is essential to student success.

- **Wider Transformative Impact**: The savings to students over a three-year period is estimated to be $48,945. Moreover, the course will be scalable across the department, the School of Humanities & Social Sciences, and the USG. The use of embedded links to sources and media can be changed quickly to adapt to current events or the needs and interests of a specific faculty member. The course has ten modules. An instructor could, for example, add an additional module or substitute one in her or his area of expertise. The course design is thus customizable and advantageous for a range of instructors. Finally, today's students want rich media. This course uses an array of educational short videos and interactive websites that brings world history to them in a portable way. Today's students
repeatedly state they find classes with media, such as YouTube and TED Talks, more stimulating and engaging (http://www.facultyfocus.com/articles/teaching-with-technology-articles/showtime-in-the-classroom-seven-ways-streaming-video-can-enhance-teaching/). However, the instructor still needs to be sure those materials are of appropriate quality and provide assignments that use the media in a meaningful way. This is one reason the team of instructor plus librarian is particularly effective in this project.

Additionally, transforming this course will enable a student to take the entire Western Civilization survey without having to purchase textbooks or materials as we have previously, and similarly, transformed HIST 1111 during Round 6.
1.3 TRANSFORMATION ACTION PLAN

- The learning materials will be adopted for use beginning in the Summer 2018 semester (pilot phase) for one section of HIST 1112 (online with D2L). The course will be carefully evaluated, refined, and taught again based on gathered data. In December, all data will be compiled and submitted for the final grant report.

- The course syllabus will include thorough explanations of how to use the online tools, readings, and media. The reading and media links and materials will also be embedded in the course itself (ten modules) for redundancy. Each module will have an introduction, learning objectives, study guide, resources for further exploration, and narrated content written by the instructor. All videos will have transcripts available to ensure Americans with Disabilities Act 508 compliance. The course also will have a "how to succeed in this course" video, with transcript, for guidance on finding and using materials. Both the course overall and each of the ten modules will have a set of student learning outcomes (SLOs). The course design starts with these outcomes, and they establish what materials the instructor selects and creates. The course conforms to the ION (Illinois Online Network) rubric which East Georgia State College uses for online course evaluation.

- The course instructor, McKinney, who is also the instructional designer, is responsible for the content accuracy, pedagogy, selection of materials, and course assessments. She will also compile and report student success data at several points during the semester (3 weeks, 5 weeks, 8 weeks, end of semester in fall; adjusted in summer for checkpoints at 1/3/5 weeks). This data will be the result of both summative and formative assessments built into the course. This reporting schedule is helpful to students to self-monitor their academic progress as well as a measure of course success rate that the instructor can apply to determine resource appropriateness.

- The librarian will also assist in gathering quality open access and GALILEO online sources and media for this project. Shepard will assist in assuring that all OERs meet college and USG standards. She will also help verify copyright issues related to the material and serve within the course as a resource. During the administration of the course, the librarian will be embedded in D2L to serve as an additional resource for using the materials, providing assistance with information literacy questions, and providing links to helpful LibGuides and library materials to assist students in their studies. Helping students understand and use primary and secondary sources is also an important part of her role.

- Our plan for open access -- The learning materials and modules will be available in D2L for enrolled students' use. They will also be available to other instructors who wish to use the learning modules. The course is designed to be taught online; however, it is completely transferable to a face-to-face or hybrid format. It follows the same SLOs as recommended by the Regents Advisory Council on History for HIST 1112. The course materials will also be available via a public, Creative Commons open-licensed LibGuide hosted through the East Georgia
State College Library for easy distribution. The LibGuide will also be submitted for inclusion in the GALILEO Open Learning Materials Repository.
1.4 QUANTITATIVE AND QUALITATIVE MEASURES

Quantitative Measures
Several sets of data will be compiled to evaluate success rates at various points in the semester:

- 3-Week Alert Grade Average (posted in D2L and GradesFirst, an early warning notification and monitoring system that records students’ academic progress. This average includes grades on the first two interactive discussions; the course has 10 interactive discussions total, one for each module, worth 30% of the course grade). This is an optional “grade update” used by the individual instructor. In summer, this first alert will be issued after the first week of class (about three formative assessments will have been comp).

- 5-Week Early Warning Grade Average (posted in D2L and GradesFirst, includes grades on first four interactive discussions and the first five video quizzes; the course has 18 video quizzes which are worth 10% of the course grade). This early warning grade is required by the college for all courses. In summer, this will be during the third week of class.

- Midterm Proctored Exam (Given at 7 weeks, worth 30% of grade). This major summative assessment covers the first half of the course and consists of short answer and essay, as well as the first “capstone” theme of the course, primary and secondary sources.

- Average Grade at Midpoint (Includes five discussion grades, nine video quizzes, and midterm exam, roughly 50% of course final grade). Students receive this information in time to decide whether to withdraw or stay in the course. In summer, this will be in week 5, before the final withdrawal date.

- Final Exam Online (Week 15-16, worth 30% of grade). The final exam has two long essay questions and also addresses the second capstone theme of the course, “historiography.”

- Final success rates—mean course grade, number of students who earned a C or better compared to total enrolled, number of students who withdrew compared to number of students who completed the course, and mean scores on the major course assessments (midterm exam, final exam, timeline, video quiz average, interactive discussion average).

This data will be compared to the success rates of previous semesters taught using the traditional textbook only.

Qualitative Measures
- IOTA survey: This is administered in spring and fall only, so we will use spring 2018 data to provide insights into preparations for summer and fall 2018 data to make any final changes to the course content. Students have several open-ended questions with which to provide feedback, and their opinions on OER are solicited specifically.

- Anonymous Feedback Discussion Board. This discussion board will be open in D2L throughout the semester. This allows students to contribute his or her opinion about the course, the course setup, and the course content anonymously for the instructor(s) to see.

- Student email check-ins: The instructor sends out periodic emails asking students about their opinions on the OER resources provided. While not anonymous, students can use this as a way to connect with the instructor and librarian, get help, or just chat informally about the course. During the HIST 1111 ALG grant project, this proved to be far more effective than formal surveys.
1.5 TIMELINE

Spring 2018 – Fall 2018

2/2018 - 5/2018: McKinney revises course content and updated visuals. McKinney and Shepard work together to find quality online primary source readings, video clips, and interactive media for the course. Shepard works on a LibGuide aimed at primary and secondary sources and history-related Library resources. McKinney reviews course with ION rubric. She also checks for issues of 508 compliance (which ensures that students with disabilities can access the content with any needed accommodations) and consistency across course modules. Shepard assists with proofing the course for copyright compliance, typographic errors, and working links.

5/2018: McKinney finalizes course syllabus (see References and Attachments) and rechecks course.

6/4/2018: Class begins. Shepard introduces students to the LibGuide and any other relevant online guides using the course discussion tool. Invitation extended to all faculty members to be “observers” in the course—to learn more about D2L as well as OER teaching. McKinney and Shepard assist students in accessing these materials in D2L throughout the semester.

6/2018: Students receive 3-week interim grade update (posted in D2L and sent via text and email using GradesFirst). In summer, this would take place after the first week of class and the third week of class.

6/2018: Midterm exams and updated grade (approximately halfway through class) posted. Shepard works with students on primary and secondary sources and other information literacy topics using LibGuide and the discussion tool in D2L. Students receive a final update on grades that reflects their midterm exam averaged in.

7/2018: Final exams and end of course/semester. McKinney makes tabulation of success and completion rates (DWR) for the course as a whole and on individual assessments (10 discussions, 18 video quizzes, midterm exam, and final exam). Using this data and the students’ feedback, course revisions are made as needed by McKinney and Shepard prior to beginning of fall. Course content is available to other instructors for fall with data collected from summer.

Initial report made to ALG committee.

8/2018 - 12/2018: Transformed course is taught for second time. Continue to gather data from student assessments, evaluations, and success rates for fall.

8/2018: Shepard compiles course module and content available in a LibGuide format for instructors outside EGSC to have access to materials.

12/2018: McKinney and Shepard compile two semesters’ worth of data (assessments, evaluations, DWR/success rates, qualitative commentary) and compare this to the success rates and feedback from the previous sections taught with the traditional textbook. All analysis is sent as a final report to the ALG committee. Course content remains available to other instructors at EGSC in D2L and the USG through a public LibGuide and the GALILEO Open Learning Materials Repository.
1.6 BUDGET

Awarded funds will be dedicated solely and specifically to meet project goals, objectives, and activities associated with the redesign of HIST 1112 (World Civilization since 1648). The scope of this project required work above and beyond the regularly assigned duties of the team members and will have to be in addition to the regular work and course load.

Personnel and Projected Expenses, Single Course Award:

- Dr. Dee McKinney, Professor of History (Instructor of Record)
  $5000 release time for course redesign and subject matter expertise
  $400 for travel to kickoff meeting and a state conference

- Ms. Katie Shepard, Librarian
  $5000 release time for research on interactive media, course-related materials, copyright, open source materials, and online primary sources; building and revising the LibGuides
  $400 for travel to kickoff meeting and a state conference
1.7 SUSTAINABILITY PLAN

Starting in fall 2018, all portions of the course will be offered to other instructors as an open resource in both D2L and LibGuides. Course materials will be updated periodically by Dr. McKinney, who will continue to teach the course, and Katie Shepard, as well as individual instructors. Evaluation of SLOs, course assessments, learning objectives, retention rates, and overall student success as related to the course redesign and use of exclusively online resources will be monitored, and re-evaluated each semester. McKinney and Shepard will give presentations at faculty meetings on campus to encourage the use of OER within courses at EGSC and throughout the USG. As McKinney is the Associate Dean of e-Learning, she can use this opportunity to be an advocate for implementing OERs and interactive media at the institution and throughout the USG. McKinney and Shepard will also pursue presentation opportunities at upcoming conferences to showcase the findings from the transformation and provide access to the materials and guidance for selecting resources for other instructors across the USG.
