

Application Number	M28
Grant Amount	\$4,800
Applicant	Dr. Carol Hoban
Email	choban@highlands.edu
Institution	Georgia Highlands College
Team Members	Dr. Sharryse Henderson, shenders@highlands.edu
Works Being Revised	Creation of recorded lectures/videos to supplement the open-resources created for BIOL2121K and 2122K under ALG Proposal #328 (https://highlands.view.usg.edu/d2l/home/1360651 and https://highlands.view.usg.edu/d2l/home/1360653).
Final Semester	Summer 2018
Grant Amount	\$4,800
Description	This project will seek to enhance and expand upon the accessibility, clarity and design of open resource lecture materials with a focus on the PowerPoints created under our current ALG Proposal #328 by recording these lectures so that faculty and students will have access to resources simulated as if they were in an on-ground classroom with a professor presenting the material to them in a virtual setting. This will facilitate the delivery of this material to not only students, but will be a great addition to our open access resources currently provided to all faculty teaching these courses.
Timeline	Late Spring 2018 - Will begin the redesign and development of virtual recordings for current open access PowerPoints for BIOL2121K. Summer 2018 - All lecture materials for BIOL2121K will be finalized to simulate a virtual classroom setting during the Summer 2018.
Budget	\$2,000 for Dr. Carol Hoban, \$2000 for Dr. Sharryse Henderson, \$800 for overall project expenses
