<b>Description</b>	<p>The goal of this project is to create ancillaries to supplement the modules that I co-created with a colleague. This mini grant will provide me with the opportunity to revise the existing OER and to create materials that will make the implementation of this resource practical for all those interested. The deliverables for this project will include the following: test banks(questions linked to APA SLOs), PowerPoints, module outlines and enhancements to the existing OER, such as updating/modifying links (as needed). This opportunity will allow for the creation of ancillaries that will ensure a smooth delivery of the modules, thus hopefully ensuring student success.</p>
